

CHANGE IN CERTIFICATION STATUS FOR MULTI-YEAR CONTRACTORS AND SUBCONTRACTORS

The Illinois Procurement Code requires that every person that has entered into a multi-year contract in excess of \$50,000 and every subcontractor with a multi-year subcontract in excess of \$50,000 shall certify, by January 1 of each fiscal year covered by the contract after the initial fiscal year, to the responsible chief procurement officer (CPO) whether it has had changes affecting its ability to satisfy the certification requirements of Article 50 pertaining to eligibility for a contract award. 30 ILCS 500/50-2.

If a contractor or subcontractor continues to meet all requirements of Article 50, then it is not required to submit any certification to the CPO. If work under the multi-year contract has been substantially completed before contract expiration even though the contract has not yet expired, then it is not required to submit any certification to the CPO.

If changes have occurred, then the contractor or subcontractor shall provide with its certification a detailed explanation of the circumstances leading to the change in certification status. In addition to the explanation, new financial disclosure forms and certification statements may be required. A contractor or subcontractor that makes a false statement material to any given certification required under Article 50 is, in addition to any other penalties or consequences prescribed by law, subject to liability under the the Illinois False Claims Act for submission of a false claim.
