**From:** Ellen H. Daley 

**Date:** 2/16/2016

**Subject:** Revised NIGP Commodity/Service Codes

On February 19, 2016, the Chief Procurement Office (CPO) will upload the latest version of the 5-digit NIGP Code to the Illinois Procurement Bulletin (IPB) and Illinois Procurement Gateway (IPG). This version includes the addition, elimination, and enhancement of more than 3,100 of the 9,138 previous codes. 3,081 of the revisions are enhancements for punctuation or descriptive language. For a list of new and eliminated codes, see Attachment "NIGP Code Revised 1/1/2016".

Today, the CPO will notify all vendors in the IPB and IPG that the revised NIGP codes will go into service on February 19. The vendors may choose to update their code selections in either procurement system at any time. When a vendor updates their codes in an active IPG registration, they are creating a new application that must be re-submitted for review and approval.

Since July 2014, the state agencies have used the NIGP Code as the standardized set of commodity codes to procure goods and services. Vendors use the NIGP codes, in both the Illinois Procurement Bulletin and Illinois Procurement Gateway, to identify the goods and services they offer.

After a comprehensive 10 month review of the NIGP 5-digit commodity codes, the NIGP licensor (Periscope Holdings, Inc.) and 52 active procurement professionals analyzed and updated the NIGP Code in December 2015.

For NIGP license holders, the revised set of codes became available January 1, 2016.

If there are any questions regarding this memorandum, please contact Joe Kim at the Chief Procurement Office for General Services at (217) 558-2231.
